Leasing News

Interest Rates: How they Affect Leases

Leasing is a very attractive financing alternative when making a new equipment acquisition. Currently, there is a lot of uncertainty with respect to economic conditions. Using a lease as an alternative to cash purchase or bank financing can have a tremendous positive impact on present and future cash flows and tax liabilities. Lease rates are now at their lowest than they have been for the last eighteen

months. Low rates, economic conditions, and lease benefits are all great reasons to consider leasing as a finance alternative. [Read More...](#)

Customer Success Story – ADA Technologies

ADA Technologies

ADA Technologies, Inc. (www.adatech.com) is a research, development and commercialization company that specializes in the creation and conversion of innovative technologies to commercial successes.

The firm's R&D efforts address problems that have a significant impact on the health, security, environment and quality of life around the world.

DFI is working with the management team at ADA Technologies to understand their business needs and based on their situation have proposed a lease alternative that makes sense to the way they manage their business. ADA has elected to acquire new equipment through a lease with DFI that fits nicely within their operating parameters. At a recent business group meeting, ADA Technologies President, Cliff Brown, commented on how well DFI has met their needs for a new operating lease.
